## Table of Contents

	Proloog	7
Chapter I	Introduction	11
Chapter II	Functional connectivity analysis of multiplex muscle network across frequencies	19
Chapter III	Network structure of the human musculoskeletal system shapes neural interactions on multiple time scales	29
Chapter IV	Information decomposition of multichannel EMG to map functional interactions in the distributed motor system	51
Chapter V	Muscle synergies and coherence networks reflect different modes of coordination during walking	71
Chapter VI	Body weight control is a key element of motor control for toddlers' walking	97
Chapter VII	Epilogue	117
	Bibliography	127
	Summary	143
	Samenvatting	147
	Dankwoord	151
	List of publications	157
